

# REDUCE & RECYCLE HOUSEHOLD HAZARDOUS WASTE

Snohomish Health District is offering information to community partners on how to protect your family and the environment.

***Learn about the following topics:***

- ✓ ***Reading product labels***
- ✓ ***Choosing safer alternatives***
- ✓ ***Storing and disposing of household hazardous wastes properly***

Invite us to your neighborhood association, community organization, or civic group meeting, and learn about the latest information including pharmaceutical, electronic, and paint wastes.

***Please contact the  
Solid Waste & Toxics Program  
at 425.339.5250, and ask for  
Hasina or Phebe.***
